Available Finishes:

# Key features of Kite<sup>®</sup> 750— Agile working made easy.

The Dual-locking castor ensures that the table is as stable as fixed-frame furniture. The locked castor prevents the need for linking devices.

50mm height adjustment ensures that each table-top meets flush on the most uneven floors.

The narrow transit profile fits easily through doors (390mm max).

The patented Kite shape facilitates multiple configurations. Everyone has a defined 750mm workspace with a straight edge and a clear line of sight to colleagues.

With 580mm uninterrupted legroom, no one sits astride a table leg, writes over a seam or is squashed into a corner.

Kite tables are available with a variety of leg styles and table-top finishes.

Modesty panels and cable management can be fitted without compromising the folding function. (See Kite Pricelist for more details)

Flip, lock, sit, start work! Kite tables can be quickly and easily assembled by one person - no heavy lifting and no need for a trolley. Kite tables are easily folded, moved and nested allowing you to make the most of your working space.

# Meeting—

Facilitating meetings of all shapes and sizes, the unique Kite shape ensures personal space, clear lines of sight and the flexibility to quickly change the layout to suit your needs.

## Presentation and Training —

Kite tables create the perfect configuration for any presentation style. Each delegate has a good line of sight so that everyone can be fully engaged. Facilitators can easily transform the room from presentation style to small breakout areas.

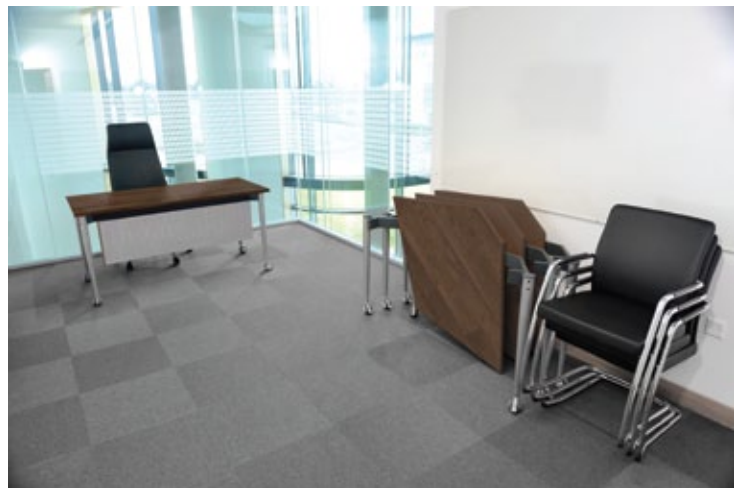

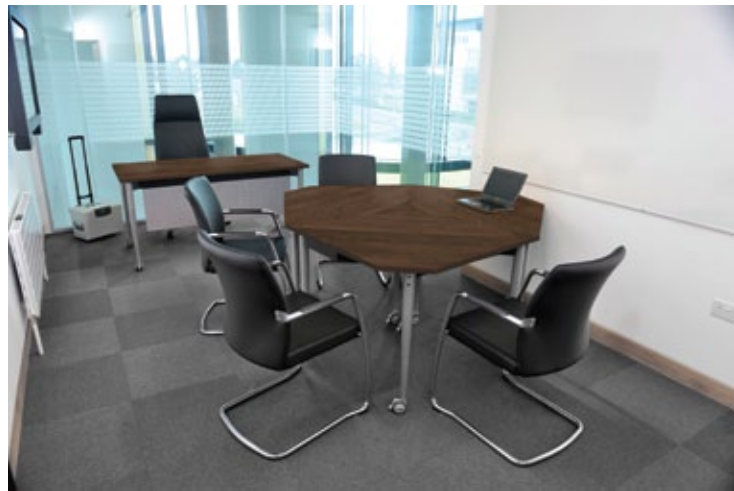

Personal working—  
Kite maximises the use of  
even the smallest space—  
the possibilities are  
almost endless.

## Socialising —

From small groups to large social gatherings, Kite tables make your refreshment and breakout areas a flexible facility. White Kite table-tops are complemented by the colourful Trellis chairs.

# Kite® agile working— Meet anywhere – work anywhere

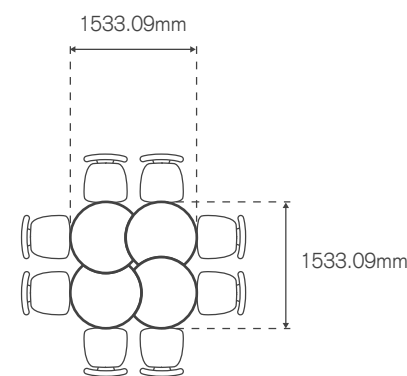

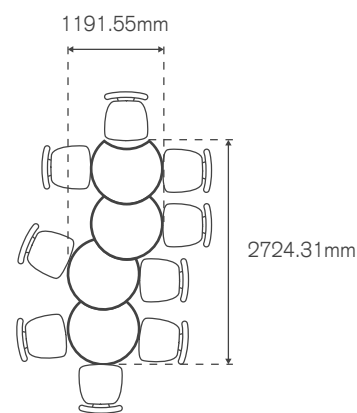

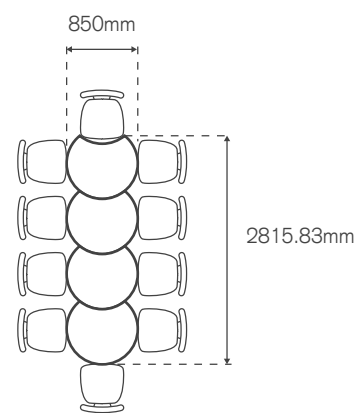

## Meet Anywhere

No lifting, no stress, no panic. The Meet Anywhere is the quick and easy solution for those occasions when the meeting rooms are fully booked. Simply roll in, flip up the table-top, lock the castors and you are ready to work.

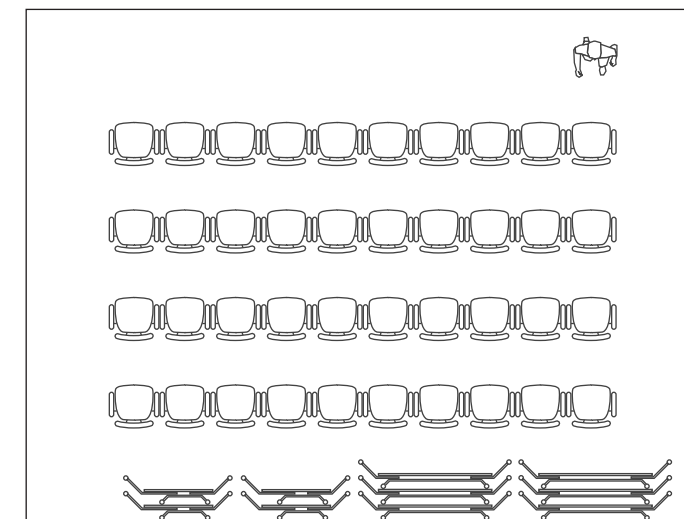

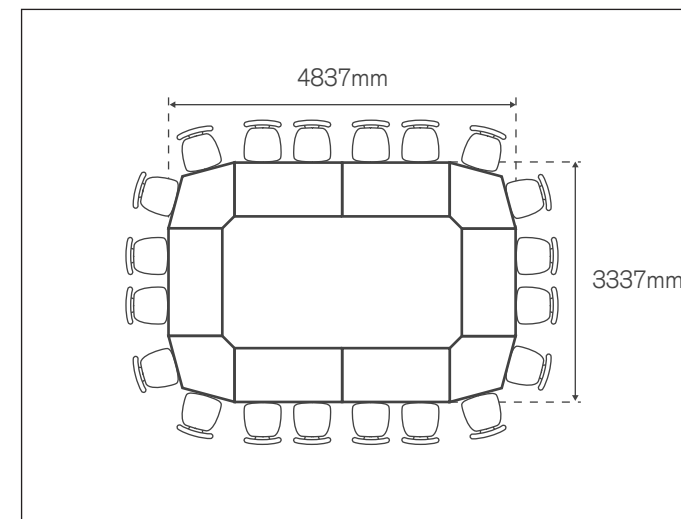

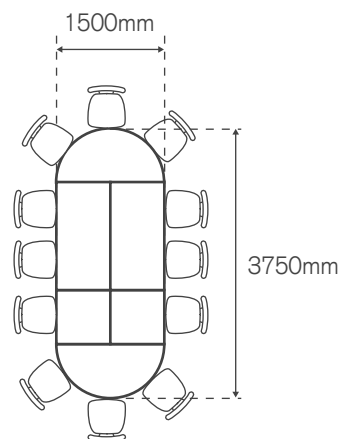

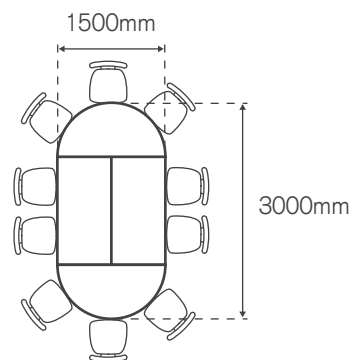

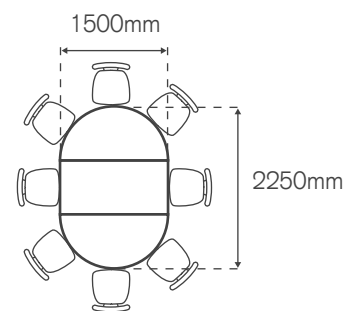

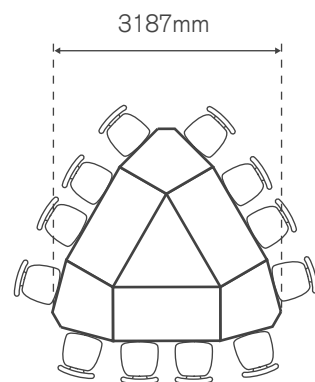

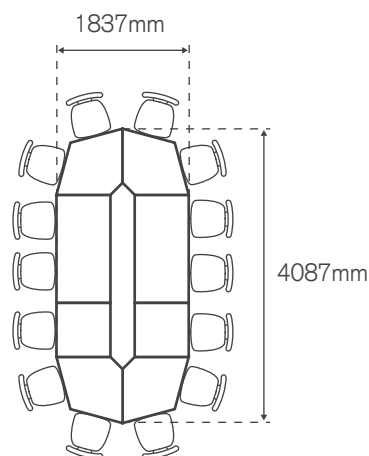

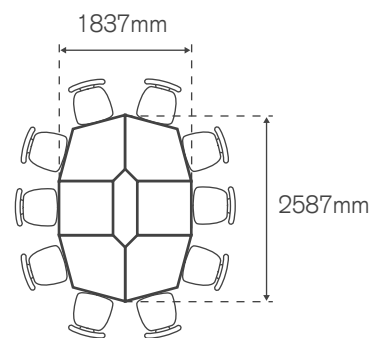

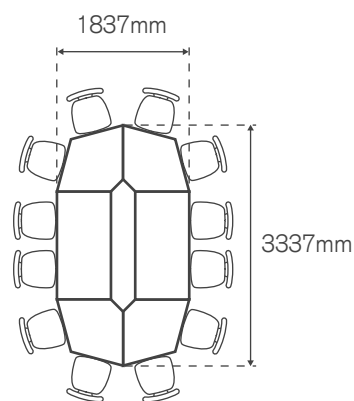

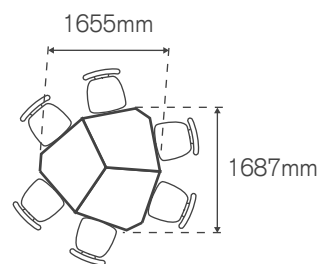

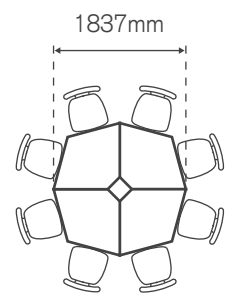

## MiniMobile

The compact storage profile and ease of transit make the MiniMobile the perfect solution for home or office working. A lower height option allows the MiniMobile to be used in the early years educational environment.

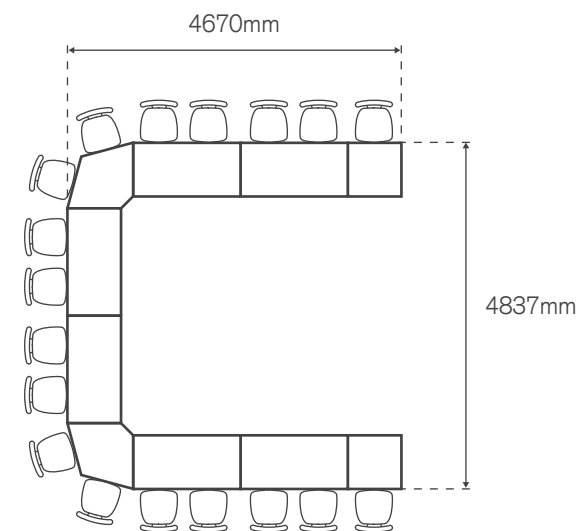

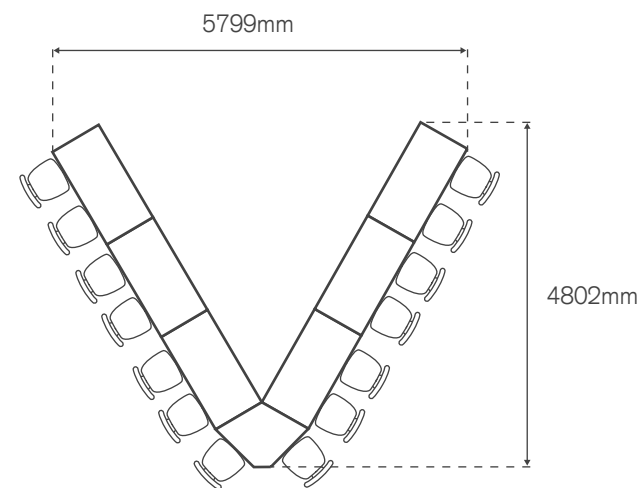

# A selection of popular layouts.

The two diagrams above have the same floor area. The diagram to the right shows the area converted into a lecture-style arrangement. The tables are shown folded down and nested together on the back wall. Seating capacity is doubled and the tables remain in the room.
