2021

A photograph of two men in a modern office setting. One man is sitting on a high stool, wearing a dark jacket and light-colored trousers, looking at a laptop. The other man is standing next to him, wearing a dark jacket and glasses, also looking at the laptop. They are in a room with a white wall, a clock, a plant, and a metal shelving unit. The text "Design led furniture for today's workspaces" is overlaid on the image in a white, serif font.

Open Workspaces

//

Today's workspace is flexible, with activities taking place across multiple locations, at any time of the day. The physical office is human-centric and experiential, bringing people together in a common narration.

The open workspace remains a centre point where we settle for the day or touch down for a few hours. It gives the set space and mental structure to concentrate on our to-do but also allows for quick conversations to boost agility and innovation.
